# BFS Clearinghaus: All processes under one roof.

## **Error-free. Data-secure. Seamless throughout.**

Globalisation has created a world of business opportunities. However, it is also full of entrepreneurial challenges, pitfalls and sources of error. Extensive regulatory requirements, tax and compliance guidelines, rapid processing and individual invoicing for international clients require a lot of time and additional staff.

As a payment flow manager between debtors and creditors, BFS Clearing helps save personnel costs and avoid errors. We seamlessly integrate multi-level value creation networks into our system and handle automated billing, as well as the individual invoicing and control of payments for your customers. Ultimately, this gives you the freedom to concentrate on your core business once more.

## **That is why BFS Clearing is worthwhile for you:**

- We are an experienced clearing house with renowned clients
- We process your master and receivables data 100% digitally
- We offer you customised services and interfaces
- You always have full access to your data and can communicate changes at short notice
- You conveniently create individual analyses and comprehensive reports
- You discover additional turnover potential and difficulties at an early stage
- You optimise your liquidity and improve your cash flow
